Dear Parents and Guardians:

Below you will find the Board Policy, Administrative Regulation, Computer System Support and Service Liability Disclaimer, and Accidental Damage Advisory for student use of technology at the Coronado Unified School District. Without a parent and student agreement, students will not be able to use the technology equipment and network at our schools.

CUSD has a network which is accessible to all students. CUSD reserves the right to monitor and review all network usage to ensure adherence to all technology policies.

Technology is highly integrated into the curriculum at CUSD and students will need access to a home computer as well as the internet, If you do not have access to a computer or internet, please contact your school site administrator.

The District's website address is www.coronadousd.net. Please visit the site to learn more about the district, schools, and activities of the Governing Board.

At times, student work or pictures may be displayed on the district, school, or classroom websites. Please indicate on the Registration site whether you will allow your child's picture or work to be displayed on the websites. Only students' first name will be used.

If you have any questions about technology use in the District, please contact the District Office at (619) 522-8900. Please read the following guidelines and acknowledge your agreement by checking the box below.

Sincerely,

Karl Mueller
Superintendent of
Schools

Dear CUSD Parents/Guardians:

Coronado Unified School District is committed to preparing students for success in school and beyond. Part of this preparation includes exposing students to technology and guiding them in its appropriate uses. We are happy to announce that in the 2022-2023 school year, all 1st through 12th grade CUSD students will be issued a Chromebook for educational use at school and at home. Chromebooks will be treated like a textbook and students will be issued devices at the start of the year for the entirety of their career in CUSD, or until the next replacement cycle. Families may keep their devices over the summer to continue their learning. Students' access to district-provided technology at home promotes our CUSD vision and supports personalized learning, opportunities for enrichment, equitable access to resources, and career readiness. Students will practice responsibility for operating and maintaining their individual devices.

Devices will be distributed at individual school sites in August during in-person registration days or during the first few weeks of school. Additional information will be communicated by individual school site teams.

For more information about this program, please follow the links below:

- 1:1 Student Device Program [Frequently Asked Questions](#)
- Purchase an [OPTIONAL Mobile Device Protection Plan](#) for just \$20 a year
- Device [Check-out and Inspection Form](#)

Please scan the QR code below to access an electronic version of this document (to access embedded links). Since every 1st-12th grade student is receiving a CUSD Chrome book, it is imperative that parents review the information, guidelines, and protection plan offer.

CUSD Responsible Technology Use Policy

All students (1st grade – 12th grade) will be issued a CUSD device. Devices will be checked out to students at the beginning of the year or upon enrollment. Directions and more details for check-out will be provided by CUSD business services. To be eligible for the use of computers and the Internet, students and parents must agree to the District Technology Use Contract which can be found in the registration packet. Students must comply with all technology rules and regulations to maintain the privilege of using the equipment. Technology provides some amazing tools for learning. With the privilege of access to networked, Internet-ready computers, however, comes the responsibility of using the technology tools appropriately.

Be aware **that inappropriate uses of the computer/network** include, but are not limited to the following:

- Using electronic devices for cheating: Copying, file sharing, plagiarizing, or printing or creating copies of work for yourself and/or other students to earn credit
- Cyber bullying: using technology to harass and/or intimidate students in/out of school
- Intentionally circumventing district filter/firewall
- Texting at any time
- Using any chat, email, or messaging features without teacher permission
- Visiting unauthorized websites/apps/social media - TikTok, Snapchat, ChatGPT, installing VPN/proxy software, etc.
- Using technology outside of teacher directed activities
- Taking pictures or video with technology or camera without teacher permission
- Playing unauthorized electronic or web-based games without teacher permission
- Downloading extensions, music programs, images, or music without teacher permission
- Using earbuds, without teacher permission
- Displaying inappropriate language or images via screen, background, screensavers, marquee, icons, or other electronic means
- Touching or using another's computer/technology without user's permission
- Altering any settings on school owned devices without CUSD permission
- Using a school owned device for a purpose other than educational activities

Consequences for misuse of technology are outlined in school site handbooks and/or the discipline action guide.

Vandalism: If a student damages a district owned electronic device, either purposefully or through inappropriate use (improper storage, improper handling which includes carrying the device by the screen, running with the device, throwing backpacks with the device in them, liquid damage, etc.), there will be consequences such as, but not limited to, detention or suspension. **The parent/guardian is responsible for the repair or replacement cost of the damaged device(s) as outlined in our CUSD Student Chromebook Protection Plan.**

NOTE: Accidental Damage Protection does not cover theft or loss of the computer device. You are advised to adjust your homeowner's/renter's policy to reflect acquisition of a computer device.
