

IMPORTANT RESOURCES THAT ARE AVAILABLE FROM INTERNET PROVIDERS

We have assembled the following list of internet provider information that may be able to assist families. You will need to follow up with the providers independently for service.

Internet Service Providers

You must live within their service area. Please check with these home Internet service providers to see if you qualify.

Spectrum - There are reports that Spectrum will provide some level of free access to low-income customers in their area. <https://www.spectrum.com/browse/content/spectrum-internet-assist>

Cox Cable - They are offering low-cost internet service, Connect2Compete, free for 30 days including premium remote desktop support. <https://www.cox.com/residential/internet/connect2compete.html>

- Cox also partnered with PCs for People where families can purchase discounted refurbished computers. More information can be found here: <https://cox.pcsrefurbished.com/>
- Learn more in the “[Learn from Home](#)” toolkit for schools that includes a way to fast track students in need of a home internet connection and how to communicate with parents about Connect2Compete.
